

Bluetooth CarKit

User's Manual

1 About the Bluetooth CarKit

This versatile Bluetooth carkit is portable and specially designed for the user to enjoy the convenience and freedom of wireless communication. It can also be used on your desktop as a speaker phone or in your car as a hands-free kit.

2 About Bluetooth Technology

Bluetooth is a short-range wireless communication technology. This technology makes it possible to connect portable stationary communication devices without the need for cables. The technology is based on a radio link that offers fast and reliable transmission of voice and data information. Bluetooth refers to a worldwide standard designed to operate in the internationally recognized ISM (Industrial Scientific transmission hop between 79 separate frequencies 1.600 times every second within a communication range of about 33 feet. Both connected devices must support Bluetooth in order to be connected.

3 Getting started

To use your Bluetooth carkit, please follow these simple steps:
A) charge your carkit before use. It's recommended that you fully charge your battery before use. Full battery charge takes approximately 3 hours.
B) Put the carkit close to a Bluetooth-enabled mobile phone less than 3 feet away during pairing.
C) Ensure your carkit mobile phone are well within the 33 feet Bluetooth connection distance.

- 1.LED indicators
- 2.Speaker
- 3.Charging Socket (5-pin micro-USB)
- 4.Volume Decrease (V-)
- 5.MFB (Multi-Function Button)
- 6.Microphone
- 7.Volume increase(V+)

In-Car Installation: Attaching Visor Clip

4 Safety and General Information

- 1.Please read this user manual carefully and follow all instructions.
- 2.To avoid any damage or malfunction of the device, do not drop the device.
- 3.Keep the device away from humidity, water and any other liquid. If the device is exposed to water, moisture and damage to the device or harm to yourself.
- 4.Do not place or keep this device near any heat sources, such as direct sunlight, radiators, stoves of other heat-producing apparatus. It may cause explosion, degrade the performance, and/or reduce battery life.
- 5.Do not modify, repair or disassemble the device (Especially the battery). Doing so will void the warranty.
- 6.Do not place the device beneath heavy objects.
- 7.Use only the supplied and approved charge.
- 8.Replacement or service to the device must be performed by a qualified service center or by the manufacturer.
- 9.Unplug the device when it is not in use for long periods of time or during lightning storms.

5 Troubleshooting

If you are unable to connect your "17-B56" to your mobile phone, please try the following:
A) Ensure the 17-B56 is paired with your mobile device.
B) Ensure your mobile phone's Bluetooth feature is activated. Please refer to your mobile phone user guide for specific instructions.
C) Ensure the 17-B56 is within the operating distance with your mobile device. Make sure there are no obstructions, such as walls for other electronic devices between your carkit and the device as it may cause transmission interference.
D) If all the above steps do not resolve your problem, please remove the battery, wait a few minutes and replace the battery.
E) The Bluetooth 17-B56 is compliant and adopts Bluetooth Specification V1.2. However, interoperability between the device and other Bluetooth-enabled products is not guaranteed because it depends on compatibility. For more information on the compatibility between the device with other Bluetooth-enabled devices, please check with the manufacturer/importer.

6 Product Specifications

Bluetooth Specifications	Version 2.1+LED
Bluetooth Profile Supported	Headset 1.0 and Hands-free 1.5
Operating Frequency Band	2.402-2.48GHz
Dimension	120(L)x60(W)x16.5(H) mm
Weight	61g
Normal Charge Time	3-6 hrs. (approx.)
Talk Time	Up to 9 hrs.
Standby Time	Up to 500 hrs
Rechargeable Li-Ion Battery	3.7V DC, 650mAh
AC/DC Charger	DC 5 to 6 V, 500 mA

7 FCC STATMENT

Warning
1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) this device may not cause harmful interference, and
(2) this device must accept any interference received, including interference that may cause undesired operation.
2. Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
— Reorient or relocate the receiving antenna.
— Increase the separation between the equipment and receiver.
— Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
— Consult the dealer or an experienced radio/TV technician for help.

RF warning statement:
The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
